

Prominent Pastor Shares the Significant Dream That Provoked Him to Prayer

Doug Stringer, the president of Somebody Cares Ministries, says he had a significant dream on April 23 that provoked him to pray for revival.

"I'm not one to go out and just share whatever dream I had," Stringer says in a video posted to Facebook. "But this was so confirming, and at the same time, very thought provoking."

In the dream, Stringer says he was walking down a brand-new road.

"It just hit me how a lot of people don't recognize the newness of things and how they take it for granted," Stringer says. "In some places, this brand-new road, so to speak, would be trampled on, and it would not necessarily be appreciated."

In the next part of the dream, he saw a large gathering begin to accumulate.
