

Prophecy: God's Army Is Emerging Locked and Loaded

I see a spiritual army rising up, weapons of warfare in place and faces set; completely focused on Jesus and what He has asked them to do. This is an army not to be messed with and not to be taken lightly.

Satan had tactics that he used to bring division among the body of Christ over the last two and a half years, but he has not prevailed entirely. There is a remnant that has gathered, stronger than ever before. The church has awakened, and many in the body of Christ have become serious warriors where they were once sitting on the sidelines.

A Clarion Call to Reunite

The Lord says that this is *a clarion call to reunite*. Those who have been wayward from church are now being called back to find home churches again. *It is time to find your place in the war*, and if you know anything about the military, this means being submitted under authority. In the kingdom, we are only as powerful as we are submitted. This is an exhortation to find your place in the body of Christ—to once again go back to fellowshiping closely with other believers, *reunited*.

A Changing of the Guard and a Season of Promotion

I hear that it is time for the changing of the guard. I believe this not only refers to political matters, but to leaders of ministries, businesses and churches as well. The Lord has anointed and appointed those in the next generation to step up and prepare to take their places as leaders in the body—but first, those who are leading now will shift into other rolls.

I hear the Lord saying that there is a greater calling and a

“shifting that has been graced” for those in current positions of leadership whom He is calling to change roles. I see a generation of leaders getting to step into new things that they’ve always wanted to do but haven’t yet done. The Lord has now gone before them and will begin to make the way clear for them to step into new things. He will bless and protect the land they have so diligently worked, and will bless the new things they start. For them, and the upcoming leaders, *it is a season of promotion.*

Favor Over Small, Local, Godly Businesses—Like Never Before

The Lord has been raising up an army that is well equipped to meet the needs of society today. You will begin to see less people relying on welfare, government programs and use of drugs and medicine. This is a time when small, local godly business will have favor like never before—and will thrive! People will be drawn to them, because the Lord will lead others to get their needs met at these businesses in godly ways. If the Lord has given you a creative idea to meet needs, now is the time to launch that idea or business.

A Time of Grace for Shifting Careers

There are many looking to change jobs this year. I feel strongly that there is a grace for shifting careers at this time. The Lord wants to release and promote His warriors into new levels of success, blessing and wealth; for some, that means stepping into something new. I see many coming alongside each other to help one another accomplish his/her childhood dreams. *Now is the time.*

Dive Deep! You Will Find Creative Ideas and Solutions

If you do not have a creative business idea but desire one, the Lord says to dive deep into Him and you will find it. In the depths of His love, He is releasing new weapons of warfare, new strategies to use with old weapons and solutions to many problems. I see teenagers getting words of revelation

that will give them multi-million-dollar business ideas.

Several Christians will soon become wealthy. The wealth isn't for a couple of people, it's for the *children of Daddy God*, who has deep pockets.

Big Pharma Is Going to Take a Big Hit

Big Pharma is going to take a big hit. They're going to know where the real power comes from—God! There will be justice coming to Big Pharma for not reporting everything that was put in the vaccines. Court cases will begin to rise; some will not stand in court, but there will be a few cases that go through and make a change, holding them accountable.

To Power-hungry Mega-corporations: This Is a Call to Reconcile Yourself to God's Ways

Big corporations that try to gain power over everyone and everything need to brace themselves ... this is not of God's kingdom, *and it will not be allowed to continue. This is a call to reconcile yourself to God's ways.*

Railways in the Spotlight

The railways are going to be in the spotlight, once again becoming a major mode of transportation of goods and people for a little while. This will be necessary as ships may not be able to carry as much right now. The railway has been decreasing in jobs, but the Lord says, "Watch as I open railway jobs again, despite the statistics."

Breaking Off the Trauma of Last Season

I declare that the trauma of the last season is *broken off* of each and every one of us, and that we are *more than equipped* for the new battles that lie ahead. I look forward to celebrating in *victory* and in more *unity* than the body of Christ has ever experienced before!
