

Prophecy: The American Economy Will Flourish in the Next 25 Months

Just a few days ago, the Lord woke me up very early and began to speak to me about how over the next 25 months the American economy will be strengthened. It will become stronger and stronger as the months pass.

I also sensed that there are other nations that will also experience a strong economy during this same time. As the Lord spoke to me, I felt hope and encouragement as I have never felt before over the American economy. This word from the Lord was specific about the next 25 months, but I could also sense that the economy will continue to be strong even after that.

I began to ask the Lord, "Why are You speaking to me about this?" What I felt in my spirit was that the Lord wants to encourage many that the American economy will boom and flourish over the next 25 months. I truly believe the economy of America will experience a huge increase during this time. The economy of America will prosper in this time not because God loves it, although I believe He does, but because He has a strategic plan for this nation. I believe that the United States has a prophetic destiny to be able to lend to nations and solve many global issues.

Now, I have been in ministry long enough to know that some will hear this word and believe me when the stock market is up and call me a false prophet if it is down. I don't think that is important. I do, however, believe that the word from the Lord right now is that the American economy will be strong and continue to be strong even for a long while after the 25-month period.

This season has already started! There will be four major

increases that will come over the next 25 months in the economic systems and structures of America. It is critical in this season to be tuned into the voice of the Lord and in obedience to whatever God is instructing each of us to do. A little over 8 months ago, the Lord spoke to me about kingdom financiers who will be given great wealth in order to fund the advancement of the kingdom of God in the earth. When God blesses our finances, it is so that we can give as we never could before.

Over the next 25 months, God will give key insight to those who are listening in order to prosper them and the assignments He has given them. For some reading this, you may be encouraged to invest in the stock market. You may want to make investments in other places. I also believe that there is a strong entrepreneurial anointing on many in America right now to create and grow businesses. This is a time and a season to invest and also to step out into the God-ideas you have inside you.

This word may be confirmation for some to move forward in the areas God has been speaking to you about. {eoa}
