

Read About The New Zionism; Plan to Attend Jerusalem Banquet

Robert Stearns,
founder of Eagles' Wings, did a magnificent job as guest
editor for the new
issue of *Ministry Today*. He highlighted a very important
topic: the New
Zionism. I'm happy to post the new
digital issue below in hopes that you'll read it and benefit
from the articles. You're getting it before it is emailed to
our regular list. I hope you'll
subscribe and be among the first people to receive it on your
iPad.

The issue of
Zionism and Israel is near and dear to me. For years I've been
a strong
supporter of Israel. So it's an honor for me to have been
invited by Robert to
be one of the "conveners" for the Jerusalem Banquet in New
York City on May 17.
Even though I'll write about it later I wanted to send this
out right away
because it was announced this week that the keynote speaker
will be former
Arkansas Governor Mike Huckabee.

With the difficult
situation in the Middle East, it's important for Christians
who love Israel to
do all they can to support Israel. Attending
this event is one way to show your support and to participate
in a worthy cause.

A press release

from Robert's ministry, Eagles' Wings, said this:

"The mounting crisis in the Middle

East makes this the most important Jerusalem Banquet we have ever hosted," said

Stearns, a noted expert on Israel-Christian relations.

"A nuclear Iran poses a threat not only to Israel, but also to the United

States. When combined with the tragic civil war in Syria and the increasing

instability of the Middle East, the need for an informed response by America's

Christian leaders has never been more pressing," according to Stearns.

Mike Huckabee is particularly well qualified to address the Jerusalem

Banquet, an annual gathering of Christian and Jewish leaders from across

America. In addition to serving as Governor of Arkansas (1996-2007) and vying

for the Republican presidential nomination in 2008, Huckabee has gained a

reputation for his penetrating analysis of national and international affairs.

He currently hosts *Huckabee* on the Fox News network.

The Jerusalem Banquet begins with a gala event the evening of Thursday, May

17 at which the Governor will speak, and culminates with the Strategic Briefing

on Friday morning, May 18. The Strategic Briefing will focus on the current situation

in the Middle East, with special emphasis on the Iranian threat. Hundreds of

America's leading evangelical pastors are expected to attend

this event.

Speakers include Ambassador Ido Aharoni, Consul General of Israel; Dr. Michael Little, president of the Christian Broadcasting Network; Mr. Steve Strang, president of Charisma Media; and leading experts on Middle Eastern affairs.
