

Faith That Conquers Cancer

In 1997, doctors diagnosed Ruby Holland Hutchins with Pulmonary Sarcoidosis and three years later told her she had stage four lung cancer. She was given three months to live. But when the itinerant preacher and single mom put her faith into action, she said the Lord healed her and doctors declared her cancer free.

Today Ruby is a sought-after evangelist who travels the country preaching God's Word and declaring His healing power. To watch her powerful testimony, click below.
