

Spirit-Filled Pastor Reports Miracle Healing After Preaching Easter Sunday

Darren Rouanzoin, pastor of Garden Church in Long Beach, California, partially tore two ligaments in his ankle in March. As a result, he was forced to wear a cast boot. But after preaching on Easter Sunday, he went in to the doctors that week and discovered his foot had been healed. He was able to remove the boot five weeks early. He tells the story—while walking, fully healed, around the room for emphasis—to his church congregation in this video sermon.
