

Steven Furtick: If You're Facing Greater Spiritual Warfare, Here's What It Means

Steven Furtick says the Bible never says not to “feel afraid.” Rather, God asks us not to “be afraid”—don’t let your fear stop you from following Him. In this inspirational message, Furtick encourages Christians that heightened spiritual warfare and obstacles are a natural consequence of following God’s destined plan. Furtick says it’s important to remember who your real enemy is, because “if you don’t know this, you’ll spend your whole life fighting the wrong things.”
