

The Life-Saving Legislation You've Probably Heard Nothing About

Advocate and lobbyist Janet Porter is behind a life-saving bill that has the potential to end abortion in America.

"It's a miracle," Jim Bakker says of the bill.

Porter, the founder and president of Faith2Action, says she's seen the power of the media's persuasiveness first-hand when it comes to women making decisions about their pregnancy.

"They've been told it's a glob," Porter says. "...They don't tell you about the baby's beating heart and fingers and toes and all the rest."

Watch the video to see how this bill is sweeping the country.
