

The Lord Is Calling the Church Back to Authenticity in Him

Can you discern what God is saying to you, His church and His world? I share in this episode of *The Power of Intimacy With Christ* on the Charisma Podcast Network a prophetic proclamation of God intervening in our norm to get our attention. He is pulling us back into authenticity. The signs of the times are everywhere, and we must respond to God's voice. Have you met the early church yet, the one that God anointed to do His will, to proclaim the authentic Word and will of God, or are you only familiar with the packaged church or its entertainment?

In this episode of the podcast, I share the need to go back to the real call of God for His people and His church. You will take away a prophetic word on what we should be doing right now as we listen to and heed what God is saying to us. Yes, right now, in this hour, God is present. God is speaking to us and is calling for a response to His voice. And to ensure it is done, He has intervened in our world. He has taken away our toys, our feel-good places and our favorite things to provoke us to hear His voice. Can you discern what God is saying to you, to your church and to His world?

I know that relationship with God empowers the whole life and provides a solid foundation for understanding and successfully possessing the promises of biblical text. Relationship with God is necessary to experiencing ultimate access to the resources of God for healthy intellectual poise, leading a victorious relational life and all that concerns us as believers in Christ (see 3 John 1:1-3). {eo}
