

Watch 'Jim Bakker Show' to Learn Prophecy Behind 'The Harbinger'

Jim Bakker believes *The Harbinger* is one of the most important books he's ever read because of its prophetic insights. The book highlights how God dealt with Israel when the people rejected Him, and how the same warnings in Isaiah 9:10 still apply today.

Bakker is featuring Cahn on his national television show all this week. He invited us on the show at their new facility called Morningside outside Branson, Mo.

Bakker wanted to talk about the prophecy behind the book. I had not told the story publicly, but it's so incredible we shared it on the show and I'm sharing it here. It involves Cahn praying for divine guidance and a total stranger giving Cahn a prophetic word that he had a message that would shake the nation. That led to a discussion resulting in me being mentioned as a potential publisher and an email asking if I was interested. After reading the manuscript I was blown away and the rest, as they say, is history.

The "prophet" is a businessman from New Jersey named Hubie Synn. We mentioned him in an

article in *Charisma*

four years ago after he prophesied to football player David Tyree that God was bringing him out of obscurity and that his name was going before him. Soon after Tyree made a catch against his helmet, which has been called the greatest catch in Super Bowl history. His team won the game.

Over the years I've gotten to know Hubie and we've prayed together. So when he emailed me the last week of January 2011 and said that he'd met a man at an airport who has written "a prophetic book to the nation," and added, "I mentioned your name to Jonathan (I hope you don't mind)" it caught my attention. He closed by writing: "Steve, I feel something is up about this, so pray about it."

What makes it doubly exciting is that Cahn was praying for guidance at that moment in the airport as he was reading his Bible and waiting for his connecting flight. Hubie's flight had been cancelled and as he was waiting for the next flight he felt he should give a word to a total stranger who turned out to be Cahn!

As soon as I read the book I knew it was a special book and I was intrigued by how it had come to us as a word from the Lord. But we also handled it in a business-like way (as we would any book). Our incredible book publishing team has done a great job of promoting it. We had no idea, however, it would zoom to 's Top 100 where it has remained since then, or that within 10 days it would become a *New York*

Times bestseller where it has remained for 17 weeks. I had the privilege of surprising Cahn on the *Jim Bakker Show* with a plaque commemorating this achievement.

As excited as I am as a publisher for a bestseller, I'm humbled at how God would use a first-time author to see this truth and use a man with a prophetic gift and a missed flight to connect the book to me. I've been blessed by prophetic words but I've also gotten flakey so-called prophetic words, as well. It's encouraging to know not all prophetic words are flakey. And God still speaks through prophetic insights today.
