

Todd White: Seers Told Me I Have a Blue Angel Who Follows Me

Evangelist Todd White emphasizes the importance of angels, saying that there are 165 mentions of them in the New Testament. He recalls a time when a man he met said he was a seer and told White about his guardian angel.

“He said, ‘When you speak, there is a big, blue angel behind you and he walks with you,’” Todd says. “... ‘He makes the Word go in and become revelation, and he towers over you, moves only when you move.’”

White says he was at another conference months later, and a woman who claimed to be a seer said the same thing to him. White says now that we’re in the New Covenant with the Holy Spirit, all Christians are royal priests and have the capability to prophesy and do miraculous things.
