

Top of the Week: TD Jakes Issues Claim on Hospitalization

Following are snippets of the top stories posted over the past week on . We encourage you to visit the links to read the stories in full.

TD Jakes Issues Claim on Hospitalization

Bishop T.D. Jakes filed an affidavit against those who have accused him of sexual abuse, labeling them as “bullies” who wanted to tear down his reputation.

This is in response to Duane and Richard Youngblood’s claims that Jakes tried to assault them years ago. As notes, Jakes claims it is this legal battle that landed him in the hospital.

“All of this was happening while I found myself helping my wife recover from knee replacement surgery and while helping my brother navigate kidney failure,” the statement reads. “This unwarranted stress brought me to a place of having a health crisis on stage in front of my entire congregation. As a guy who’d had no previous health challenges, this near-death experience was a turning point for me. Enough is enough!”

Bringing Prophecy to Life: Is ‘Peter the Roman’ Emerging?

Speculation is running wild. Pope Francis’ health is declining, rumors of his resignation are swirling and some believe an ancient prophecy is about to come true.

Could we really be witnessing a moment foretold nearly 900

years ago?

Before we get carried away, let's take a breath.

Wisconsin Woman Has a Vision Where Fire Rains From the Heavens

All over the globe, men and women of God have been having dreams and visions in which they are given glimpses of our future. Often, the things that they are shown are apocalyptic in nature. Of course that is perfectly consistent with what the Bible says. Throughout the Scriptures, we are told that the days just before the return of Jesus will be unlike anything that humanity has ever experienced before. If we really are living in the end times, it won't be too long before humanity witnesses a tremendous amount of death and destruction. Needless to say, such a message is not popular with the vast majority of the population.

Earlier this week, I received an email from a woman in Wisconsin named Heather that really got my attention. After reading my recent dream about President Trump, she felt compelled to send me an extremely vivid dream that she had in December 2024 because she felt that it may be related.

After reading what Heather sent to me, I asked her if I could share it with all of you. Thankfully, she agreed to my request. The following is Heather's account of what she was shown in December 2024.

Barron Trump Rising: Is This the Prophetic Moment of Revival?

In a world where judgment increasingly prevails, cancel culture and division, one young man's quiet but profound moment in a university classroom has captured the hearts and minds of millions.

In a viral video that has garnered over 1.2 million views, Barron Trump, youngest son of President Donald Trump, did something remarkable. While in class, he listened as a professor launched into a sharp critique of his mother, Melania Trump. But instead of reacting with anger or engaging in a heated debate, this young man simply and powerfully responded with wisdom beyond his years.

“You talk about my mother as if she’s just an image, a caricature of what society wants her to be,” he said, his voice firm, yet calm. “But have you ever stopped to consider the humanity behind the headlines?”

Children Miraculously Healed From HIV, Blindness

“He has sent me to heal the broken-hearted, to proclaim liberty to the captives, and the opening of the prison to those who are bound,” (Isa. 61:1).

There is nothing too difficult for the Lord to accomplish, and His miraculous power has certainly been seen through Kathryn Krick’s ministry.

Back in 2019, Krick journeyed to Africa where she prayed over a group of children who were suffering from HIV, one of which who had gone blind because of the severity of their condition. However, after praying for healing and God’s power to anoint these children, they have been supernaturally healed.
