Vlad Savchuk: 6 Safeguards for Receiving Personal Prophecy

From personal experience as a youth pastor and now evangelist, Vlad Savchuk knows that the prophetic can be an often misused—and abused—"gift" in the church. He says he has seen it used to manipulate others, and it comes with consequences.

The leader of the HungryGen movement and pastor of a multicultural church, Savchuk recalls a time as a youth pastor where the above scenario played out.

"The first time that I've seen this happen was when I was a youth pastor," he says. "A young man who was about 16 years of age felt like he was a prophet. So, he comes up to a girl and tells her that he is her husband. They're 16! The poor girl freaks out, and she starts crying. So I'm dropping this kid off home, and he tells me he knows who his wife is going to be."

Bible Prophecy Fulfilled: Red Heifer Born in Israel Marks a Prophetic Milestone

In a momentous development that has reverberated throughout Christian and Jewish communities, a red heifer, a significant

symbol in Bible prophecy, has been born in Israel.

The Temple Institute, an organization dedicated to preparations for the Third Temple in Jerusalem, made the groundbreaking announcement on their YouTube channel, heralding the calf's arrival as a pivotal moment in the fulfillment of ancient Bible prophecies.

The birth of this red heifer, a female calf, holds profound spiritual implications, as it is believed to bring the promise of reinstating biblical purity to the world. In both Christianity and Judaism, the red heifer has played a prominent role in eschatological narratives, specifically in relation to the "end of times."

Students Spark Holy Spirit Explosion at Small, Liberal Texas University

A revival at Asbury University in Kentucky gained a great deal of nationwide attention for 16 days back in February. It spawned many other mini revivals across the country, but eventually the excitement waned.

In sharp contrast, a little-known liberal university in southeast Texas has been celebrating a campus revival since 2018, and its momentum for Jesus continues to this day with weekly salvations, baptisms, healings and repentance among its students.

Texas A&M-Corpus Christi, a school of a little less than 11,000 students, is seeing an unprecedented move of God at the collegiate level. It has become a model university for the gospel of Jesus Christ, says Mike Fehlauer, the lead pastor of nearby New Life Church, where it all began five years ago.

Does Jonathan Cahn's Newest Book Reveal Shocking Final Mystery?

“The Josiah Manifesto” Reveals the Stunning Secret Behind What Is Happening to America

Could a 3,000-year-old calendar of appointed days provide the secret to the most dramatic year of our lives, even ordaining a plague and a national lockdown, days of fire and the changing of the Supreme Court?

What does the future hold? Is America heading for calamity? Is there hope? Have we been given a last chance? Is it possible to change history? And is there a blueprint that tells us what we need to know to survive and stand in the face of what is yet to come?

New York Times best-selling author Jonathan Cahn answers these questions and more in his explosive new book, *The Josiah Manifesto*, published by Charisma Media.

The Point at Which Society Must Say ‘Enough Is Enough’

It’s true that most Americans want to be tolerant and open-minded. But there is a point where they draw the line, saying enough is enough.

We’ve been seeing that happen more and more in recent days, as the radical left continues to go off the deep end and as viewpoints that were once considered fringe try to make their way into the mainstream.

The latest to join this list of those pushing back is rock icon Alice Cooper. He was dropped by a cosmetic company for daring to say that “a woman is a woman and a man is a man.”
