

Undeniable Proof the Prophet Isaiah Definitely Existed

Kim Clement's daughter, Donne Clement Petruska, says the recent discovery of the Isaiah seal is the fulfillment of one of her father's prophecies. Clement prophesied in 2014, "Scientists shall say, 'What we thought was a fact has now become fiction.' For in Turkey, and in Iraq, and in Israel, there shall be discoveries come out of the earth that shall prove over and over and over the Creator of the universe whom they have said does not exist. For Petruska, Dr. Eilat Mazar's team's discovery of a clay seal, called a *bulla*, fulfills this prophecy. Watch the video to see how this lines up.
