

WATCH: David Crowder Shares Hopeful Message Behind His New Song With Mandisa

David Crowder explained the background behind his collaboration with Mandisa, "Let It Rain (Is There Anybody)," in a new behind-the-scenes video. He says the song carries a message of hope for everyone.

"Sometimes you have a little pressure," Crowder says. "Sometimes life gets a little devastating. But out of that pressured moment, when you're being pushed down, something beautiful's going to come up. Something doesn't die and go into the ground without rain bringing it back to life. ... That's what I need. I need God to fall on ground that's waiting for new life to spring up."

Crowder says the resulting song is "one of my favorite songs I've ever been a part of."
