

WATCH: God Restores Woman's Kidneys After Vineyard Pastor Follows Word of Knowledge

Crestwood Vineyard Pastor Brian Blount was in South Africa when he had a word of knowledge about a woman with a kidney issue.

He shared it with the small group he was ministering to, and a young woman stood up and approached him.

"When she was 16 years old, her left kidney was removed because of an abusive thing that happened to her," Blount shares with Sid Roth. "Her right kidney was damaged, too, working about 2 percent."

When Blount and the surrounding group laid hands on her and began to pray, "she felt like a fire coming through her body."
