

What Half the Christian Church Doesn't Want to Believe About the Supernatural

Regarding the supernatural and the paranormal, there is a division inside the body of Christ. Half of the Christian church doesn't want to believe in the supernatural; they either don't want to know about it or they ignore it.

Some refuse to believe that Satan even exists, or even the Holy Spirit Himself.

But, to ignore the supernatural is to ignore the Bible because the Bible is a supernatural book that tells people there are forces of good and evil. God wants us to know the truth, and the Bible is full of truth.

In this video from Lion of Judah Ministries, we are told that the only condition to dwell in safety in this world is simply to obey God. Leviticus 19:31 reads, "Do not turn to spirits through mediums or necromancers (spiritists). Do not seek after them to be defiled by them: I am the Lord your God."

This simply means believers and non-believers alike should not get involved in sinful activity, such as sexual perversion, sexual abuse or witchcraft. Don't so much as dabble in them because there are repercussions to these actions. God has put up walls to protect you, and what He is protecting us from is opening doors in our lives that we would struggle to close.

In His Word, God has forbidden us to open up doors to evil, unclean spirits.

"The truth is, demons are not stupid," the video narrator

says. "They are far more intelligent than us as human beings. Demons have been around a lot longer than you and I have, watching humanity, using trial and error and understanding what works and doesn't work. They literally have centuries of research and knowledge on humanity."

The video tells a story of a woman who became involved in the occult. Over the passage of time, everything in her life—her marriage, her finances, her job—became "beautiful." But her husband got saved, preached to her and talked to her about Jesus. She went to church and got saved too. When that happened, the video says, many supernatural things—evil not good—began to happen in her life.

For the rest of the story, please watch the video above and remember to stay close to the cross and to the Word of God to gain protection from these demons. {eoal}
