

What Happened When Demons Manifested in This Bethel Pastor's Home

How does a Christian who loves the Lord become so overwhelmed by fear that he can't stop shaking?

"I shook so bad, I couldn't get a glass of water to my face without holding it with two hands," Kris Vallotton, now a Bethel pastor, told Sid Roth in 2000.

Vallotton says it started one night when he was in the bathtub. He says he was overwhelmed with an obsession that he wanted to die.

When he moved hoping to escape stress, demons started visiting him.

"Demons would actually come into my room, I mean, I would see them physically," Vallotton says. "They would come in my room. They would lay on my chest at night. I couldn't move. I would be totally incapacitated."
