

What 'The Jetsons' and Cindy Jacobs Prophetically Got Right

Just as the 1960s cartoon *The Jetsons* depicted a future full of video phones, robotics and Google-style office space, some modern-day prophets have prophesied about a future full of exposing corruption, fighting for individual freedom and shining a light on truth. One of those prophets is Cindy Jacobs, and her prophecy from 12 years ago has been proven right.

In 2010, Jacobs publicly prophesied, "I'm Cindy Jacobs with a word from the Lord for the United States of America. The Lord would say to you: 'I am getting ready to begin to peel off layers of deception in this nation,' says God. 'I am getting ready to expose corruption that is at levels that people would say cannot be.'"

Twelve years later, the FBI's raid of President Donald Trump's home in Florida on Aug. 8, 2022, exposed the deception and corruption of the Biden administration to persecute a political opponent, as if the United States were a third-world country where authoritarian regimes persecute opposition leaders and their supporters to reinforce their power and control.

Yet, this questionable raid, which could have been handled through the legal system more judiciously and less visibly, was the culmination of a regime exposing its own deception in order to destroy core American rights, values and individual freedoms for people of all races, ethnic groups and creeds, so it has total control, just as Communist China does. It's being done in the name of something more sinister than just the socialism it is trying to impose on America—without caring who

discerns or reacts to it, especially from a Christian point of view.

If Trump had not been democratically elected in 2016, the American people could arguably still not know the deep layers of deception in the political, educational, Big Tech, corporate media and cultural realms. Or, God would have used someone else. Challenging people's assumptions, preconceptions, comfort zones and unawareness was inevitable, according to the word of the Lord.

But the way it turned out was that God used Trump, who has expressed a consistently strong commitment to defend Christian values and freedom of religion. This is why Trump represents, according to Pam Bondi, former attorney general of Florida, the "single biggest threat" to woke progressives, who espouse their own secular religion in diametric opposition to biblical Christianity.

At the same time, the U.S. Justice Department has protected President Biden's son, Hunter Biden, who has alleged ties to foreign interests that point to potential compromises to the U.S. national interests. The son's laptop allegedly has incriminating evidence that could possibly tie his father directly to blatant corruption on an international scale. It is increasingly being exposed, underscoring Jacob's prophetic word.

The liberal bias of the mainstream media has not stopped former journalists, who have been driven out of the media, from voicing their concern. Retired Arizona television news anchor Rick D'Amico tweeted on Aug. 12:

I posted this question on social media: "Can someone explain why Trump is getting raided by the FBI while a man on video snorting cocaine with hookers is jetting around on Air Force One?"

– Rick D'Amico (@rickdamico123) August 12, 2022

The FBI has also refused recently to stop violent protesters outside the homes of conservative justices on the U.S. Supreme Court, yet agents arrest conservative parents who speak up at school board meetings to halt the indoctrination of liberal ideologies, such as critical race theory, in schools. The Justice Department has categorized these parents as “domestic terrorists”: parents who care about the welfare of their children and don’t want the race-baiting, Marxist-shaped indoctrination of their children to go unchallenged.

There have been no FBI stings against people and groups who firebomb pro-life pregnancy centers or damage Christian churches in a woke rage. To date, the FBI has also visibly not raided the home of the person who leaked the Supreme Court decision about Roe v. Wade months ago.

On Aug. 8, Senator Marco Rubio tweeted:

The FBI isn't doing anything about the groups vandalizing Catholic Churches, firebombing Pro-Life groups or threatening Supreme Court justices

But they find time to raid Mar A Lago

Furthermore, the Jan. 6 Committee, which includes two Republicans who have handshake agreements with the Democrats, has refused to highlight any information that would exonerate Biden’s chief political opponent who fights for the constitutionally-protected, individual freedoms of Americans: Donald J. Trump.

The double standard is chilling, shining a light on carefully crafted corruption at the highest levels of government to try to stop the one person whom God is using to expose the corruption in America, ranging from the federal government to the educational institutions to the business world to the mainstream media.

Jacobs continued in her prophecy in 2010, "I am getting ready to shake and expose handshakes, coercion, people who have worked with other people but thought they were totally protected beneath layers and layers of protection and nobody could get to them, and nobody could see what they are doing."

Today, the handshakes between virtually all Democrats and many two-faced Republicans in government leadership in collusion against the 45th president of the United States are no longer concealed. Layers of deception have been peeled away, as Jacobs prophesied, and the American electorate will have the opportunity to clean house in the U.S. Congress in November 2022 in one of the most historically important congressional elections in decades.

Former U.S. Sen. Ron Paul tweeted last week, "With each passing day, the Biden Administration drifts further & further from reality. Politicians are notorious for practicing deception, but when lying becomes constant, even it starts to lose its 'effectiveness.' The truth & those who speak it, become a breath of fresh air."

Trump may just be that "breath of fresh air" heading into the next presidential election cycle. Inadvertently, the Democrats have turned him into somewhat of a martyr, which is rallying the Republican Party behind Trump at a level that hasn't been seen in years.

More broadly, Trump's election in 2016 was a significant event of historic proportions, used by God to expose massive corruption in the United States. The fierce opposition to not

only Trump but also against everything that Trump stood for revealed the layers of deception far worse than anyone thought.

The day Trump took office on Jan. 20, 2017, *The Washington Post* was already calling for his impeachment. He had not done anything yet as the duly elected president, but the propaganda-peddling people in the media and government were projecting their own wild deceit onto Trump. The corrupt power centers of Washington, D.C., were being threatened. Trump is the enemy of corruption, so they had to try to destroy him before all the layers of deception were exposed.

Jacobs got it right prophetically. "The Lord says, 'The important thing is that I see and I am getting ready to come with a wind of the Spirit, and I'm going to blow through and even begin to shift and shake the court systems of judicial activism,' says the Lord, 'for there are those who thought they were a law in and unto themselves because they sit on a judge's bench.'

"But God would say, 'No, I am the great judge of the universe, and I have convened the court of heaven,' says the Lord, 'and I am getting ready to shake and even remove some,' says God, 'who would think they could not be pulled down from the position. But God would say, 'as in Isaiah 22, when I removed one and put another in, ... I'm getting ready to sweep judicial activism. I'm shaking the courts,' says God. 'Watch what I will do.'"

It is no accident that Trump is responsible for appointing three justices to the Supreme Court committed to the original intent of the U.S. Constitution. Trump did more to disrupt and expose "progressive" judicial activism than any other leader in our lifetime.

Roe v. Wade would not have been overturned without Trump's staunch pro-life stance and courageous leadership to appoint

judges who, unlike liberal judges, do not legislate from the bench.

Jacob's prophetic word may seem so simple, so easy to dismiss, like a futuristic cartoon. Yet the force that is behind the vision of the future is what determines what unfolds in the natural realm and in the spiritual realm. Modern-day prophecies are more than just futuristic cartoon depictions of tomorrow.

But even The Smithsonian Museum in Washington, D.C., acknowledges how a forward-thinking vision in creative form can shape the future.

The Smithsonian's Matt Novak, in an article entitled "50 Years of the Jetsons: Why The Show Still Matters," wrote in 2012, "It's easy for some people to dismiss *The Jetsons* as just a TV show, and a lowly cartoon at that. But this little show—for better and for worse—has had a profound impact on the way that Americans think and talk about the future."

Likewise, Trump, who has reportedly prayed the prayer of salvation and has voiced the reality of divine intervention, has had a profound impact on the way 70-plus million voters think and talk about the future of America under the creative, guiding hand of the Holy Spirit.

Notably, the Lord let the prophet Cindy Jacobs know about it a decade earlier in a demonstration of God's power to say it will happen and then, over time, it happens. The Smithsonian may want to look into the prophetic power and accuracy on display through the Spirit of the Lord.
