

Why Christians Should Treat the Latest X-Men Movie With 'Extreme Caution'

Movieguide's Dr. Ted Baehr says he recommends Christians treat the latest X-Men film, *Dark Phoenix*, with "extreme caution" because of violence and harsh language. What's more, Baehr says the movie has lost some of the Christian references of earlier films.

"It doesn't have the Christian content of Nightcrawler praying and the other things that were happening in earlier X-Men," Baehr says. "...If it wasn't for a little bit of foul language, it wouldn't be too bad, but [there's] a lot of violence. So it's not for young kids."
