

Why Hearing About Suicide Inspired Sadie Robertson to Write New Book

If you are in crisis, please call 800-273-8255 or visit . You are not alone.

Her friend's husband's death by suicide prompted Sadie Robertson to write her new book, *Live*. She wanted to communicate the value of life to everyone.

"I realized the reality of how many people experience that every year and [know] somebody who made that decision, and I was like, 'People need to know their life matters,'" Robertson says. "I knew I wasn't qualified to write the counselor version, and I know that that's needed, and this is not the answer. But this is a friend saying, 'Your life has meaning, and it's so valuable, and we want to celebrate you.' Here's how to live a better life and know that it's a miracle that you're living."
