

Why Wouldn't You Want to Talk About Hell?

Many people don't want to talk about hell. Many of them think hell is just a joke or a scare tactic—or that it was invented to keep people afraid and tied to religion. Some think hell is used to enforce ethical behavior. Others claim it's an outdated belief in ancient Christian creeds or nothing more than a fairy tale promoted by Hollywood movies.

Even Christians reject this biblical place of eternal torment, saying that it can't exist because their God is one of love.

The truth is that hell, judgment and a place of eternal suffering offends people. People don't want to talk about hell because it makes them uncomfortable.
