

Will Israel Take a Stand Against the LGBTQ Agenda?

Noam Party chairman M.K. Avi Maoz called for the closure of the Israel Defense Forces Gender Affairs Department Monday.

“The spread of this perception of gender throughout the IDF must be stopped immediately. We face many security challenges, please do not allow foreign agendas to harm the IDF at the expense of the security of the citizens of Israel,” Maoz wrote.

He penned these words in response to an instance where in “a number of Intelligence Corps courses,” the Hebrew language “has been distorted, with references to female soldiers being made in multi-gender language.”

Not only does Maoz believe this weakens morale, but it is “destroying the army from within.”

Watch this video for more on Maoz’s reasoning behind this decision.
