

YWAM Celebrates 50 Years of Spirit-Filled Mission Work

This year, Youth With a Mission (YWAM) celebrates 50 years of training, equipping and sending young people to the missions field. The organization, founded by Loren Cunningham in 1969, released a video on its official YouTube channel this week commemorating how things have changed in the last half-century—and how the organization's mission has remained the same. In an archive clip, Cunningham shares the prophetic vision that inspired YWAM: "I was out in the middle of the Caribbean, and the Lord gave me a vision: ... It was waves of young people going from everywhere to everywhere by the millions."
