

Ex-Witch Unveils Secrets of Blood Offerings, Occult and Freemasonry

Jac Marino Chen spent years caught up in all kinds of demonic, supernatural occurrences. Now, in an interview with Allie Beth Stuckey, Chen is sharing how she got out of the darkness and into the light.

As a child, Chen had an encounter with entities which she originally believed were angels, later on to discover that they were actually aliens. As a teenager, Chen was drawn to New Age beliefs like the law of attraction and how she could control her reality. Eventually, Chen found herself deep into occultic practices.

“I started being influenced by these entities,” Chen says. “One thing led to another led to another until I joined in an occult order called The Golden Dawn where we practiced ritual magic in a Freemason lodge, and it was there that Jesus Christ met me in that darkness and saved me.”

Before Chen was saved by Christ, she found herself in a relationship with a man based on the concept of “twin flames.” This ideology leads people to believe that they are supposed to be together no matter what, regardless of important factors like marital status. The belief is that these two people are the same as one another and have no other option than to be together.

“He taught me that we lived hundreds of lives and we were each other,” Chen says. “And that in some of them we sadly were

sent on different quests but we were the same being, ultimately.”

“Ultimately, I made this man my god,” she continues. “He became my religion, teaching me about the New Age.”

As Chen’s life continued to spiral downward, learning about paganism, polyamory and taking psychedelic drugs to communicate with demonic entities, she eventually found herself joining an occult order.

“I was walking down the street and I saw a Freemason Lodge and [it] glowed,” Chen says. “So that got me more into the Masonic texts, cabalistic is a secret society, ultimately, I think that it has a lot to do with idolatry and gnosticism.”

While Freemasonry is known for being a brotherhood, according to Chen, there are Masonic orders for women as well.

“I ended up being led to the Golden I ended up being led there because I saw these tarot cards that were glowing and they ended up being the tarot deck by a man named Alister Crowley, and he’s known as the most wicked man to have ever lived,” Chen says.

Chen says that when she went to become initiated into the Freemason order, she was dressed in a black robe and red socks, and was encouraged to meditate before it took place.

“I was hoodwinked so I couldn’t see, and it was very dark. A lot of it had to do with taking John 15 out of context, that you’re going into the darkness to shine the light of knowledge in it, the secret knowledge,” Chen says. “There was a sword put to my neck swearing that I would never share what I learned.”
