

Former Bride of Satan Exposes Satanism and the Occult

As a victim of satanic ritual abuse, my guest was raised in the occult, ritualized as a child and baptized in blood. Her earliest memories are of being groomed to become a bride of Satan. She believed it was her destiny, and there were no other options.

Her father had a Ph.D. and was working as a well-known professor. Her mother was a respected nurse, yet all were living a secret lifestyle. During the daytime, everything appeared normal, but at night, visitors would come, and the rituals of blood sacrifices and offerings to demons would begin.

This former bride of Satan exposes the secret underground world of Satanism and the occult. This is a must-listen-to interview that reveals the evils of witchcraft and the overpowering love, grace and power of God to deliver and heal.

My guest is not a person I sought out for an interview, but I have worked with her and her family for nearly a year and have logged approximately 300 hours of leading her through deliverance and inner healing.

Yes, this story is shocking, but her life is a testimony to the love and grace of our heavenly Father and the redeeming power of Jesus.
