

How to Discern the Schemes of the Enemy to Protect Your Family

Learning the functions or schemes of the enemy is crucial in detecting the tactics he uses against you and your family. Just knowing that a lot of the difficulties and dysfunctions you have and are going through come as a result of the set ups of the enemy and are not necessarily the result of your lack in life.

We can come under a lot of guilt and condemnation in life, feeling like we are failure, not knowing that we have been set up for generations to fall, to sin and to fail.

Knowing how the devil has operated against us and our generations will bring us to the realization that we can break free and live happy successful lives in the kingdom of God.

Jesus didn't tell us to discipline, counsel or medicate demons, He told us to cast them out. These teachings along with prayer will teach you how to break free and deliver your families and others. Join us in one of the greatest last day moves of God through deliverance.
