"Here's the dark truth about Jack-o-lanterns," says Weaver. "Jack-o-lanterns originated from a festival called Samhain, and they believed on this one day that the veil would be very thin and the dead could arise from graves and come back and wreck vengeance and horror on the living."

Weaver notes that in ancient tradition, people would cut out scary faces in the gourds as a means to ward off these evil spirits from attacking. She also points out another legend regarding the jack-o-lantern, which is about a blacksmith whose name was Jack.

"He made a pact with the devil, so the devil couldn't take his soul. When he died, he couldn't go on to heaven, and he couldn't go into hell, so Satan forced him to roam around with this carved out pumpkin light as his only way to see, and he

went around wrecking havoc and horror on the lives of people," Weaver says.
