

L.A. Marzulli Reveals The Mountainside Werewolf Encounter

In a recent video, L.A. Marzulli shared a former worship leader's testimony of having an encounter with a werewolf while driving through Jellico Mountain on I-75.

"As I slowed down around a curve, there was a large creature standing in a ditch a few feet off the shoulder of the highway," the worship leader's letter read. "Even though the ditch was a couple of feet deep, he looked like his head was a little higher than mine, and I was driving a large type minivan."
