

The COVID Beast Part 9: The Beast Is Evolving

The biggest obstacle for most people to the idea that a vaccine could be the “mark of the beast” (MOB) is the lack of a visual mark on their right hand or forehead. But as we will see by studying Revelation 13:16, this is not what the text says in Greek. While the “mark” is literal enough to make an argument for a patent, technology is such that it is likely to be invisible.

Another breakthrough comes when we realize the locations we are being marked may only be symbolic of something much deeper than our skin. Moreover, we will see that the Greek words surrounding the MOB lend credibility to the idea that this vaccine follows the biblical template.

We will also cover the correlations of Revelation 18:23 and how it can expand our reasoning about precisely what kind of deception is coming. What if the Bible told us that part of the great deception that was coming had something to do with our pharmacies?

But the most significant way to destroy Satan’s plans is to spot the lies he is telling us. Nowhere are these lies more evident than the false fear most people have about their risk of dying from COVID-19. So, join the *Supernatural Junkies* as we expose the lies of the COVID narrative and the truth of how natural immunity is superior to these supposed vaccines.
