

How Over 1 Million Men Are Getting Over Porn

With the internet, smartphones, snapchat and Facebook, pornography is more pervasive today than ever before. It is also impacting the church. According to a survey by Pure Desire Ministries, over 68% of church going men and over 50% of pastors struggle with pornography. This is having a profound impact not only on church communities but also families.

Thankfully there is a cinematic small group study that is being used by churches in over 80 countries to help more than 1 million men find lasting freedom from pornography. The Conquer Series is a 12 disc study hosted by former Marine fighter pilot and pastor, Dr. Ted Roberts, who has coached thousands of men on how to live a life free from porn. Packed with solid biblical teaching and powerful war reenactments from Dr. Ted's life, the Conquer Series shows men how to win the battle against pornography.
