

Joanne Believed This Promise From God—Do You?

“Joanne Moody’s book, *Minute by Minute*, is the story of a most amazing testimony of healing. It’s one of the greatest healings I have seen, and one of the most documented histories of pain and disability. But, it is not just the story of her healing; it is the story of living life with disabling pain for years, and life after healing. It includes an out-of-body experience at her death. This is an amazing book, one that I highly recommend to everyone.”

—Randy Clark, ., Th.D., international speaker, founder and president of Global Awakening

Minute by Minute recounts the reality of consciously choosing to trust God in the midst of raw agony. Just when it seemed that hope had vanished, God swept in and supernaturally healed Joanne in a moment. Her story is one of faith, hope and triumphant victory over death.

Once a trained athlete in peak condition, Joanne Moody suffered a post-pregnancy injury that sidelined her for the next 14 years. Not one to give up easily, Joanne fought to find an answer to her pain year after year. Countless doctors attempted to treat her until finally one recommended a surgeon in France. Joanne and her sisters made the trek only to stare death in the face. At the moment of her greatest pain, God reached down and gave her a promise. *Minute by Minute* will keep you turning the pages as you join Joanne on her journey through a valley of pain and her eventual arrival at the pinnacle of faith and love.
