

Pro-Life Centers Forced to Advertise for Abortion?

California law requires licensed medical centers that offer free help to pregnant women to post a disclosure saying that California provides free or low-cost abortion. In March, Alliance Defending Freedom (ADF) stood up for the rights of pro-life centers at the U.S. Supreme Court.

Our culture is changing at a rapid pace, and now more than ever we must remain steadfast in our faith to challenge these changes head on.

Since 1994, countless religious liberty advocates have placed their trust in ADF—and now ADF Church Alliance—to help them do just that. Why the Church Alliance?

1. ADF Church Alliance employs a professional team of constitutional attorneys who work closely with more than 3,200 allied attorneys.
2. Churches can sign up at a low-barrier point and need not spend time researching an attorney.
3. ADF Church Alliance is dedicated to defending and advocating for the right of people to freely live out their faith.

For two decades faithful Christians have turned to ADF, and now ADF Church Alliance, to ensure they had fair treatment. They didn't pass up this partnership. Will you?
