

What You Really Need in Order to Fulfill Your Resolution to Quit Porn

Business Insider tells us what all that dusty gym equipment already knew: A full 80% of New Year's resolutions fail by February.

With nearly seven out of 10 men in the church viewing porn on a regular basis according to a Pure Desire survey of churches, there is a desperate need for men to understand the battle they are up against. Many churchgoing men who love the Lord and desire to serve Him are looking for a way out.

Yet, just as statistics show, most men who make a New Year's resolution to never watch porn again find themselves back on the same websites in no time. That's because of this simple truth: Willpower won't fix it!

It's not about loving Jesus more, praying more, or being more disciplined.

It's not a battle of the will. It's a battle of the brain.
